

The BOG

03-12-19

Willow Lake, Plumas County <http://creagrass.home.montereybay.com/CA-PLU-WillowLake.html>

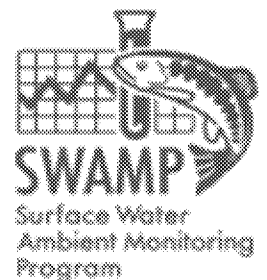

Item 1: Agenda Review

- 14th Annual BOG Review Panel Meeting!
- A light agenda – plenty of time for questions and comments
- Quick round of updates
- 2015, 2016, and 2017 data reports
- Progress on the Bight
- Sampling plan for 2019 – Bass Lakes Panel 3
- Monitoring Council activities – Portal upgrade
- Water quality status report – Bioaccumulation data story
- Long-term monitoring plan
- Make sure we hear from the Panel

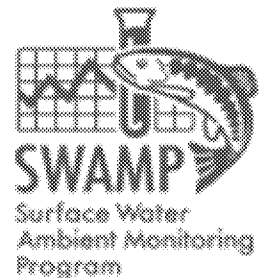

Item 2: Quick Updates

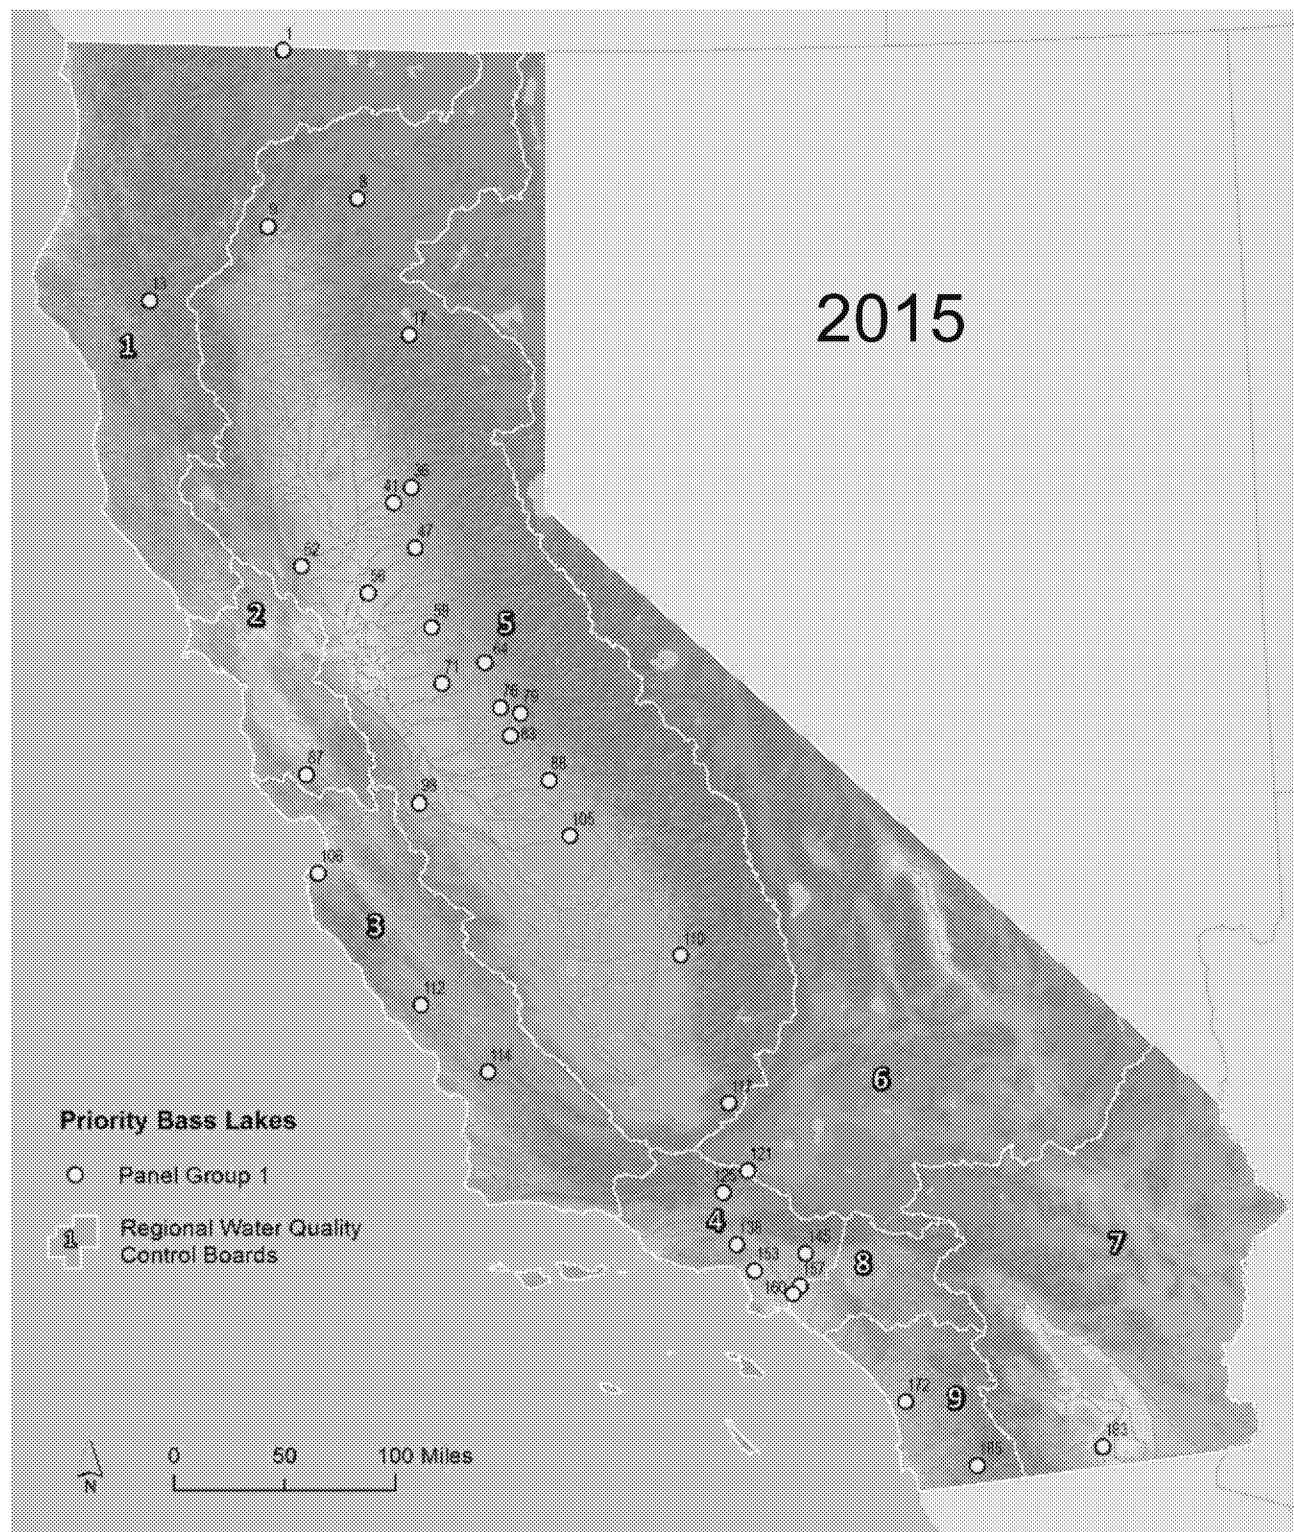

- Mercury Control Program for Reservoirs
- OEHHA advisories - new advisories
- Datasets recently added to CEDEN
- Delta RMP mercury monitoring continues: 7 fish sites
- San Francisco Bay RMP sampling this year
- Others?

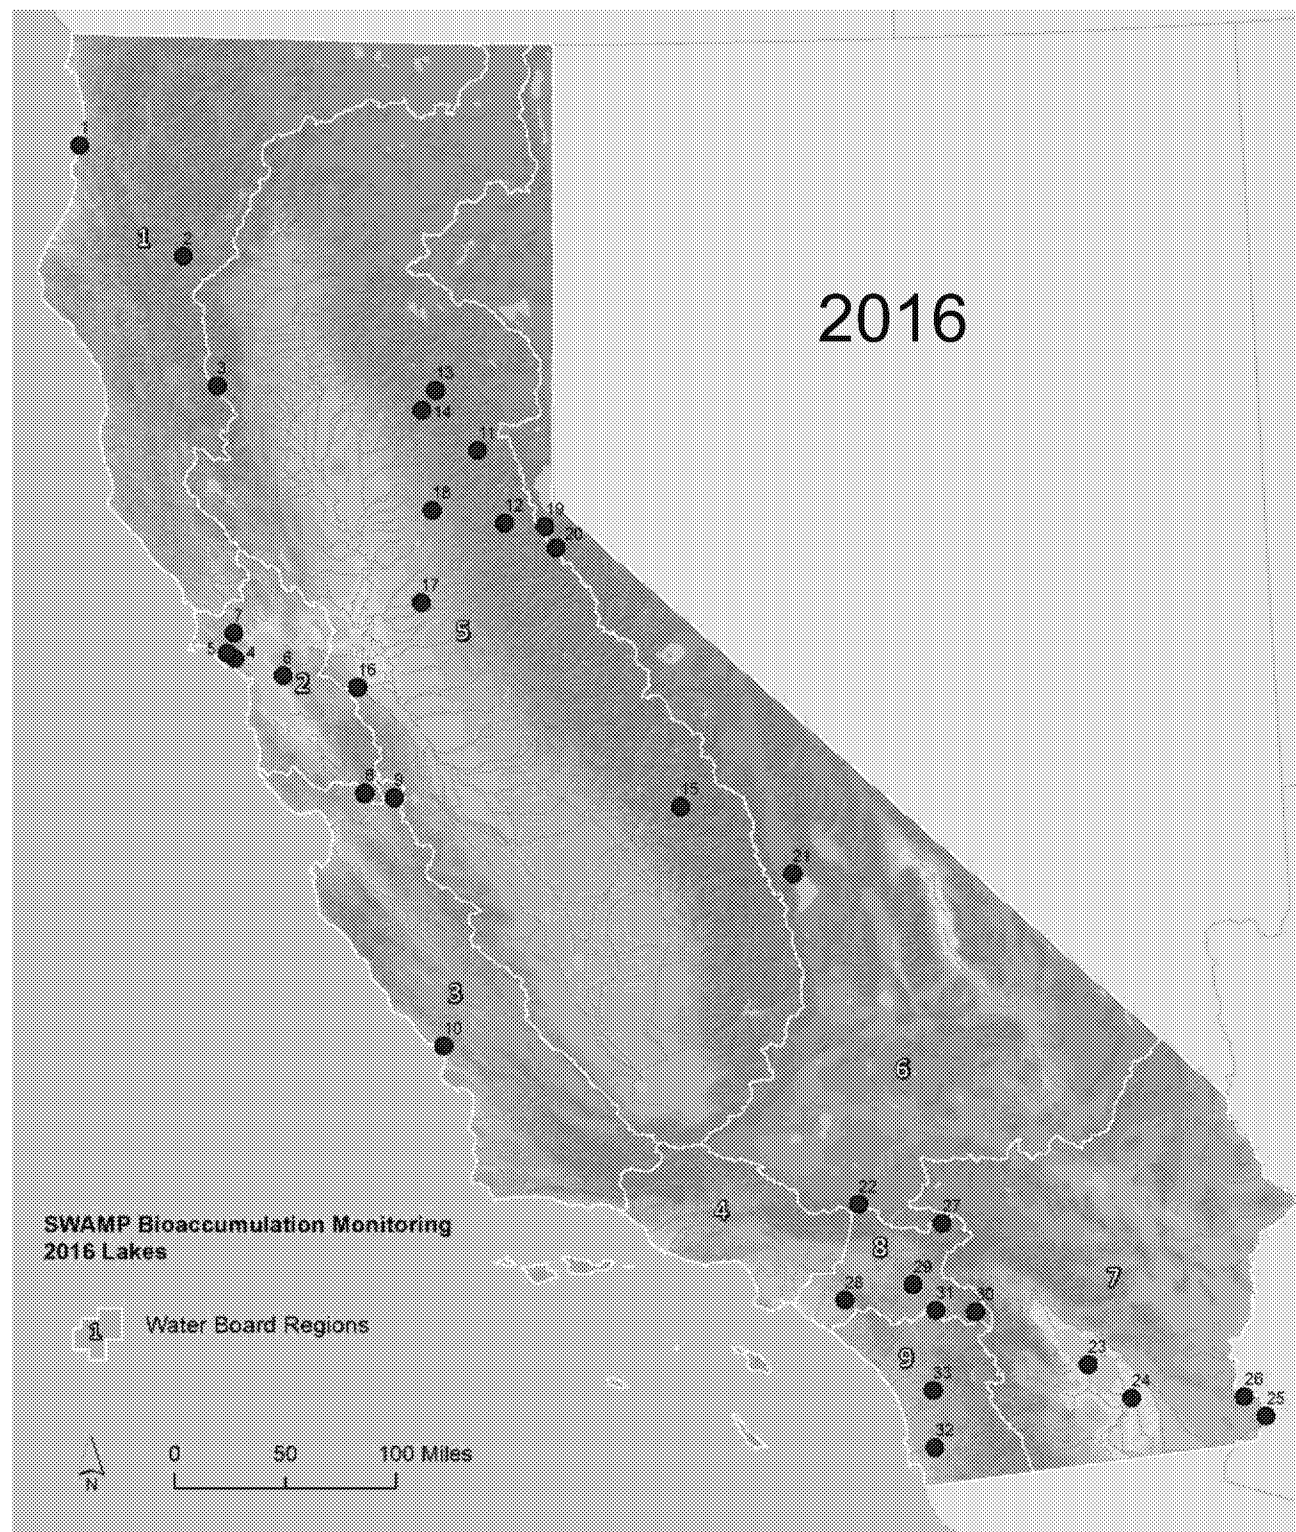

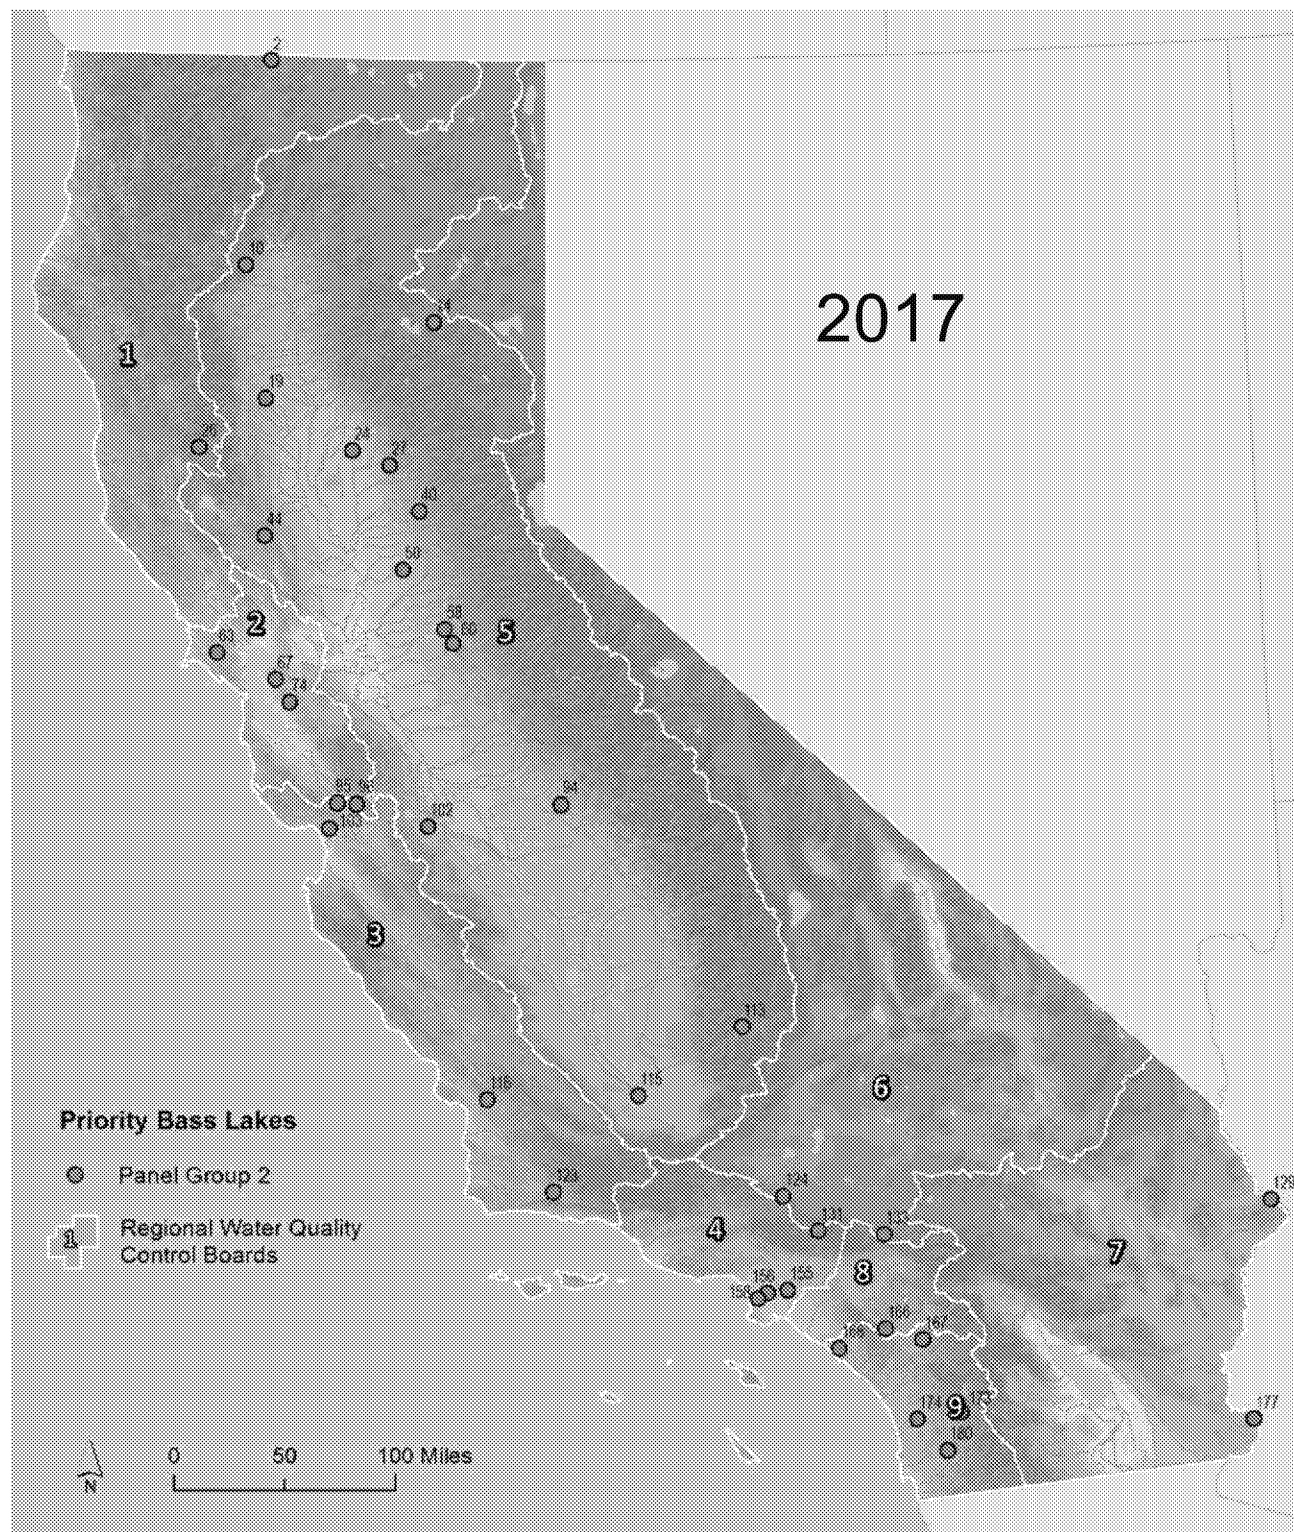

Item 3: Information - 2015, 2016, and 2017 Data Reports

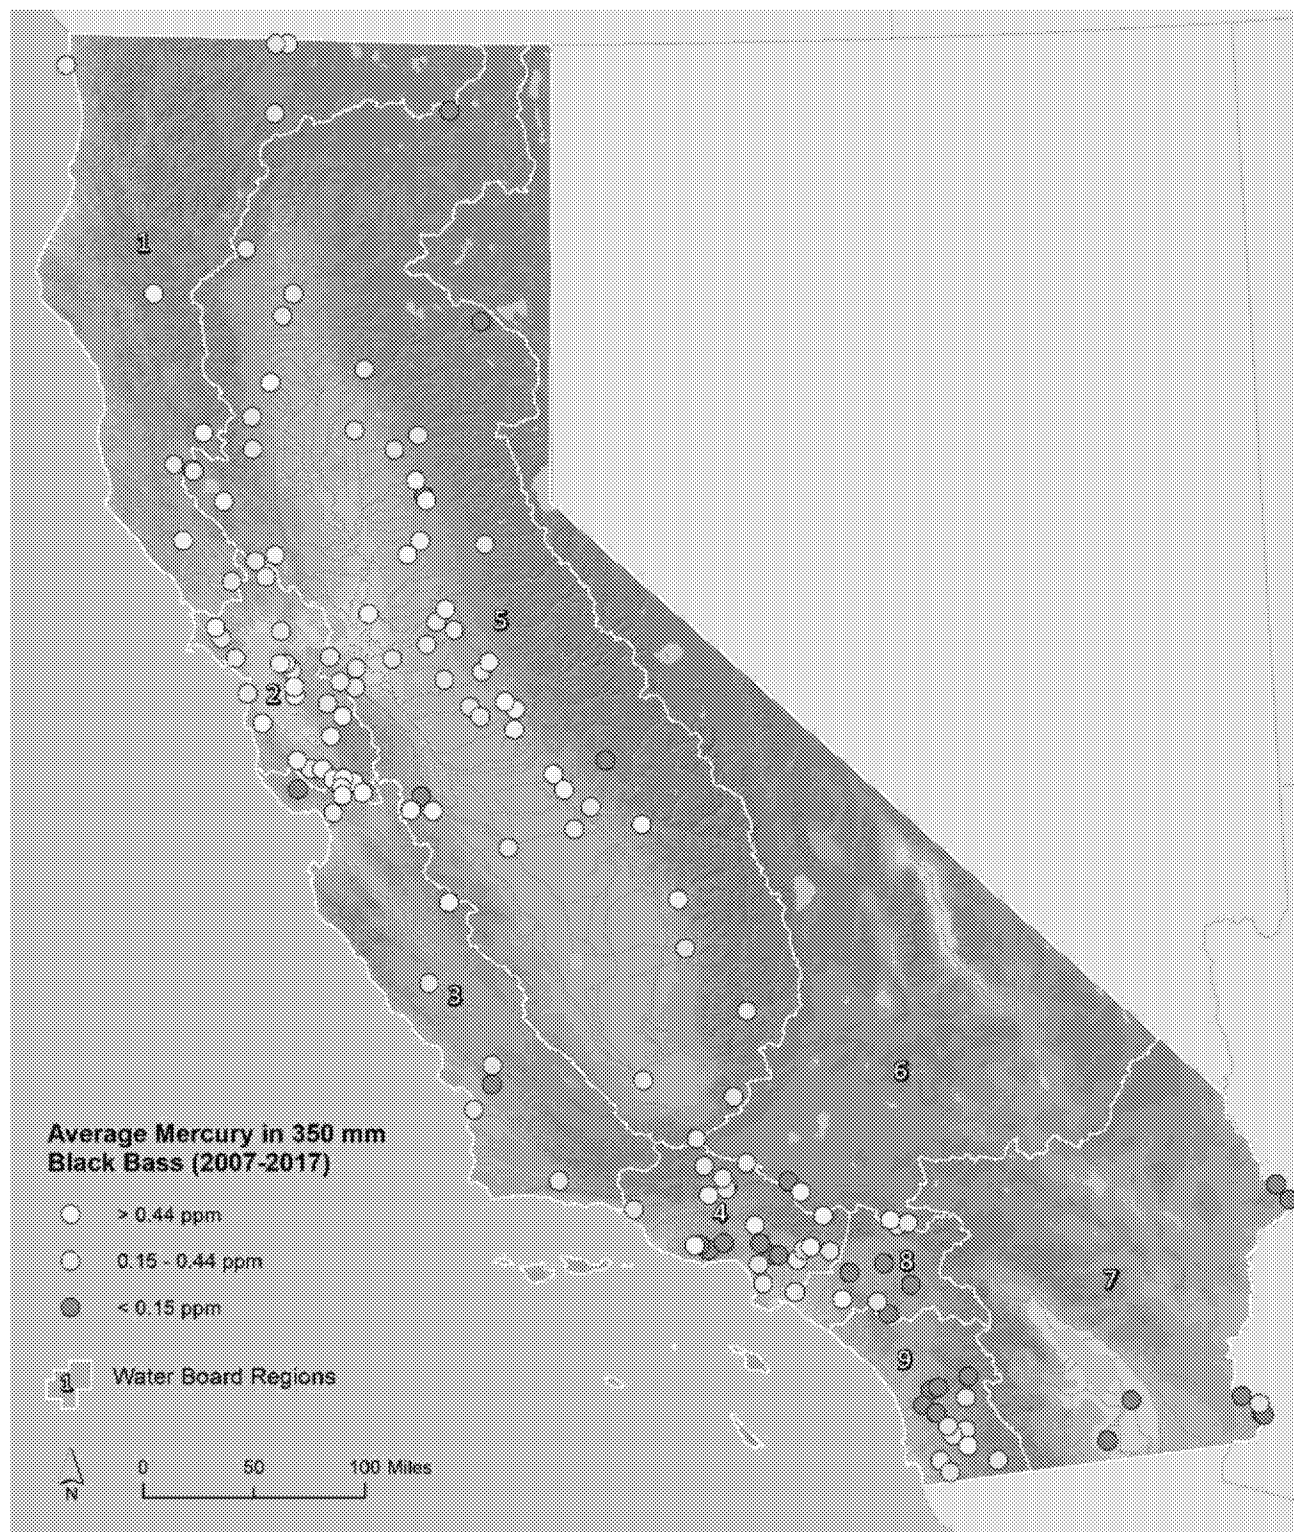

- Original desired outcome for today: Present reports and obtain feedback
- But... still under construction
- Reasons for delay
 - Applying improvements to the full set of 3 reports – separating data for different locations within lakes
 - Finding errata – sport fish and prey fish, incorrect sample type
 - New data flow
- Timeline for completion
 - Out for review by 3/25
 - Comments by 4/8
- Fact sheets?

Item 4: Information/Discussion - Progress and Timeline for the 2018 Monitoring of the Southern California Bight (and Coast)

- Desired Outcomes: Informed committee, team coordination
